

Concurrent Workshops and Section Speakers
2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
Wednesday, May 4th, 2022 Section Meetings (6 Live Section Workshops for CE)		
<p>109: The Use of Project Management Principles & Tools for Program Planning Success Among Undergraduate Public Health Students</p> <p>The presentation will expose participants to the authors’ current research and recent publications on the topic of project management (PM) in public health, how academic programs can integrate PM into their courses and curricula, and how program planning efforts can be enhanced by using PM approaches and tools. By the end of this session, participants will identify opportunities to build PM principles into their own classes and receive sample PM assignments they can incorporate into courses with team projects.</p> <p>Identify the benefits of incorporating project management principles and tools into undergraduate public health team projects to facilitate learning, develop the future public health workforce, and ensure effective and efficient health program planning and implementation.</p>	<p>Live Section Workshop (60mins) Academic 5/4/2022 245-4pm Room 4</p>	<p>Eboni E. Haynes, PhD, MBA</p> <p>Melanie L. Gwynn, PhD, MHA, MPH</p> <p>Kristi Sprowl, MPH, CHES</p>
<p>102: Internal Controls</p> <p>Internal controls should be designed to help safeguard an organization and further it’s objectives. The presentation will review the impacts of a lack of internal controls by reviewing examples of common fraud schemes. Finally, the presentation will include examples of internal controls that can be put into practice.</p> <p>Understand internal controls and identify controls that can be deployed to reduce fraud risk.</p>	<p>Live Section Workshop (60mins) Administration 5/4/2022 245-4pm Room 7</p>	<p>Gregory M. Chapman, CPA, CIA, CISA</p>

Concurrent Workshops and Section Speakers

2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
<p>40: Catalyzing and evaluating complex initiatives to improve health equity in rural Georgia: A braided approach from healthcare Georgia foundation</p> <p>Healthcare Georgia Foundation’s The Two Georgias Initiative is a multi-million dollar, five-year, place-based grant making program designed to address health inequities in rural Georgia communities. There are inherent challenges in planning, implementing, and evaluating initiatives for the Foundation and the 11 funded rural Community Coalitions. The Foundation provides funds, resources, and technical assistance, with the goal of a comprehensive and creative approach to “braiding” the interventions with evaluation. By “braiding” multiple, distinct strands of evaluation in a coherent way that serves one common goal, the Foundation and its partners can provide meaningful lessons learned on evaluating a multi-dimensional, complex intervention aiming to improve health equity in rural Georgia.</p> <p>Describe the strategy behind The Two Georgias Initiative's intervention to improve health equity in 11 rural communities.</p> <p>Design an innovative "braided" approach to evaluating complex, multi-site, multi-year place-based interventions.</p> <p>Identify examples of outputs from the evaluations over time and across scales.</p> <p>Describe the design and implementation components of a complex, dynamic public health intervention focused on health equity.</p>	<p>Live Section Speaker (60mins) Health Education and Promotion 5/4/22 245-4pm Room 11</p>	<p>Samantha Tucker, MPH</p> <p>April Hermstad, MPH Joy Goens Thomas, DrPH, MSPH Tina Smith, MPH Michelle Kegler, DrPH, MPH</p>
<p>122: Community Resiliency Model Training: Using your nervous system to cultivate your best self during COVID</p> <p>CRM is a skills-based wellness and prevention program that provides a biological, non-stigmatizing perspective on common human reactions to stress and trauma. The primary focus of this emotion stabilization program is self-care, but it can be shared with clients, family, and friends. CRM skills include somatic (or sensory) awareness techniques to track body sensations,</p>	<p>Live Section Workshop (60mins) Nursing 5/4/2022 245-4pm Room 10</p>	<p>Linda Grabbe, PhD, FNP-BC, PMHNP-BC</p>

Concurrent Workshops and Section Speakers

2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
<p>especially those connected to wellbeing, and reset the natural balance of the nervous system.</p> <p>Demonstrate CRM's simple biologically based skills to get back into the Resilient Zone, a balanced state of body, mind and spirit.</p>		
<p>129: Implementing Breastfeeding-Friendly Practice Guidelines</p> <p>Pediatrician engagement is key for improving breastfeeding duration rates in Georgia, where duration rates at 6 months are far below Healthy People 2030 goals despite much improved initiation rates. The Breastfeeding-Friendly Pediatrician Program provides pediatricians with resources to improve clinical care & support to breastfeeding families. Many of these AAP recommended practices can be easily adopted by other health care providers and adapted to public health settings.</p> <p>At the end of this presentation, learners will be able to: recall 7 practices that are associated with optimal outpatient care of lactating families and describe a new program designed to help pediatricians implement these practices</p>	<p>Live Section Workshop (60mins) Nutrition 5/4/2022 415-530pm Room 8</p>	<p>Claire Eden, BA, IBCLC</p> <p>Tarayn Fairlie, MD, MPH, IBCLC, FAAP</p>
<p>117: Fatal Melioidosis in a Child — Georgia, 2021</p> <p>Describe the fatal case of melioidosis in GA and provide info on the multistate outbreak. Describe how we found the source of the outbreak.</p> <p>Describe the melioidosis case, including clinical course and identification of <i>B. pseudomallei</i>. Explain the course of the multistate outbreak and the process used to identify the source.</p>	<p>Live Section Workshop (60mins) Epidemiology 5/4/2022 415-530pm Room 5</p>	<p>Skyler Brennan, MPH</p> <p>Jessica Pavlick, DrPH, MPH Melissa Hunter, MPH</p>
<p>Thursday, May 5th Concurrent Session 1</p>		
<p>41: Promoting vision for adaptive leadership: Region IV Public Health Leadership Institute</p> <p>Public health leaders need vision to partner across sectors to improve health equity. This complex calling requires adaptive and strategic leadership skills. This workshop will share an overview of the Region IV Public Health Training Center's Public Health</p>	<p>Live Workshop (60mins) 5/5/2022 930-1030am Room 8</p>	<p>Moose Alperin, EdD, MPH, MCHES</p> <p>Michelle L. Carvalho, MPH, MCHES Laura M. Lloyd, MPH, MCHES Brandy Walker, PhD, MA</p>

Concurrent Workshops and Section Speakers

2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
<p>List steps for implementing Data2Care at a district level.</p> <p>Apply lessons learned to the development of local SOPs.</p> <p>Evaluate outcomes of Data2Care implementation.</p>		
<p>7: Increasing RN student rotations with Schools of Nursing</p> <p>By sharing our method of increasing the number of students we have rotate through our health centers the more exposure nursing students have to public health nursing. The hope is they would then have an increased desire to pursue jobs in public health. CDPH hopes to share this best practice with Georgia health districts to support the public health nursing shortage.</p> <p>Assess information learned and apply the principles in local health districts.</p>	<p>Live Workshop (30mins) 5/5/2022 3-4pm 1st Room 5</p>	<p>Karla Ayers, RN, BSN</p>
<p>P58: Georgia Department of Public Health’s Community Paramedicine Pilot Program</p> <p>This presentation will discuss Community Paramedicine programs and how DPH has implemented the model to support stroke prevention in rural Georgia counties. I will also review preliminary data and early conclusions, and discuss challenges faced as a result of the COVID-19 pandemic.</p> <p>Evaluate the efficacy of Community Paramedicine Programs in preventing stroke and improving outcomes by addressing related risk factors.</p>	<p>Live Workshop (30mins) 5/5/2022 3-4pm 2nd Room 5</p>	<p>Brandon Calvert, MS</p> <p>Teri Newsome, RN, BBLSS</p> <p>Rana Bayakly, MPH</p>
<p>86: Health for all people: Re-defining healthy eating and weight</p> <p>Healthy eating and healthy lifestyle can be achieved for persons who are overweight or even obese. Because stigmas and biases even in the medical community, these patients often suffer and get less medical care.</p> <p>Identify multiple factors that affect weight and obesity.</p> <p>To discuss weight bias and its impact on persons who are overweight or obese.</p>	<p>Live Workshop (30mins) 5/5/2022 3-4pm 1st Room 7</p>	<p>Jennifer Reed, MA, RDN/CDE</p>

Concurrent Workshops and Section Speakers

2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
To articulate strategies and skills for practicing with a weight neutral approach.		
<p>99: Implementing and evaluating healthy nutrition standards in a rural food pantry</p> <p>North Central Health District staff and local food pantry partners are working together to implement policy, systems, and environmental (PSE) changes to improve the foods clients receive. Example PSE changes include implementing a nutrition policy for food orders and donations (March 2021), partnering with a local farm to provide fresh produce, and enhanced storage of perishable items. Results from a baseline and 1-year follow-up survey assessing client perceptions of the food pantry will be presented.</p> <p>Discuss how efforts to implement healthy nutrition standards in a rural food pantry impacted food offerings and client diets.</p>	<p>Live Workshop (30mins) 5/5/2022 3-4pm 2nd Room 7</p>	<p>April Hermstad, MPH</p> <p>Karen-Ebey Tessororf, MPH, CHES</p> <p>Linda Beasley Gloria Simmons Michelle C. Kegler, DrPH, MPH</p>
<p>Friday, May 6th Concurrent Session 5</p>		
<p>136: Evidence-Based Medicine for Public Health Practitioners: Assessing the Validity of Randomized Controlled Trials Using the COVID-19 Example</p> <p>Interactive workshop where participants will work in groups to assess treatment studies that use a randomized controlled design. Two articles which concern COVID-19 therapies, and which display different levels of quality, will be used. Relevant sections will be abstracted for participants so that assessments can be completed in a time-efficient manner.</p> <p>Define the following as they relate to RCT validity: observational vs. experimental design, validity (internal and external), randomization, concealment of allocation, confounding/unknown confounders, study blinding, stopping trials early, intention-to-treat.</p>	<p>Live Workshop (60mins) 5/6/2022 8-9am Room 8</p>	<p>Sarah Peck, MS</p> <p>D. Stephen Goggans, MD, MPH, FACP</p>

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
<p>The Georgia LEND Pediatric Audiology Program conducted a mixed methods study to evaluate the barriers to accessing care for children who are deaf or hard of hearing with additional disabilities and their families. This presentation will review the data collected and discuss ways in which systems of care can be more responsive to the needs of children with HL + ASD/DD and their families.</p> <p>Familiarize with the EHDI system and community-based supports in Georgia</p> <p>Familiarize with individual and family supports for Autism and N/DD in Georgia</p> <p>Review best practices for educating providers and community members about supports</p>		
<p>92: Preliminary Findings of a COVID-19 and Flu Vaccine Hesitancy Needs Assessment in a Rural Georgia County</p> <p>The COVID-19 pandemic continues to exacerbate significant challenges (e.g., unemployment) in rural counties such as in Hancock County, Georgia, which has the highest percentage of African Americans (71%) by county, and leads the state in per capita deaths having, at one point, the highest COVID-19 mortality rates in the United States. African Americans have the lowest COVID-19 and flu vaccination rates compared to other racial groups. In collaborative partnership with the Georgia Department of Public Health, North Central Health District, the purpose of this assessment is to better understand COVID-19 and flu vaccine hesitancy among African American residents in Hancock County.</p> <p>Identify preliminary drivers of COVID-19 and flu vaccine hesitancy and barriers to vaccinations</p> <p>Discuss the importance of trusted messengers among rural African Americans</p>	<p>Live Workshop (30mins) 5/6/2022 8-9am 1st Room 10</p>	<p>Kimberly N. Carr, PhD</p> <p>Anne Montgomery, PhD Brad Lian, PhD Chris Scoggins, MPH Karen Ebey-Tessendorf, MPH, CHES</p>
<p>P55: Tale of Two Mobile COVID-19 Vaccine Clinics: Lessons Learned about Vaccine Engagement in Rural Southwest Georgia</p>	<p>Live Workshop (30mins)</p>	<p>Remy G. Hutchins, RN, BSN, MPH</p>

Concurrent Workshops and Section Speakers

2022 Georgia Public Health Association Annual Meeting and Conference

TITLE DESCRIPTION OBJECTIVES	WORKSHOP DATE TIME ROOM	LEAD PRESENTER & CO-AUTHORS
<p>A diverse and inclusive Vaccine Equity Taskforce (VET) was created in January 2021 to address barriers to vaccine uptake. VET examined the impact of one-on-one engagement on COVID-19 vaccine uptake at two pop-up clinics located in Southwest Georgia. We discovered that engagement increased vaccine uptake among hesitant individuals.</p> <p>Assess how engagement is a practical application to help with COVID-19 vaccine uptake.</p> <p>List 3 examples of engagement to increase COVID-19 vaccine uptake in hesitant individuals.</p> <p>Describe how addressing health equity can impact COVID-19 vaccine uptake.</p>	<p>5/6/2022 8-9am 2nd Room 10</p>	<p>Jacqueline Jenkins, MSPH Victoria Davidson, MPH Nathaniel Elijah Barrera-Nitz, MPH</p>
<p>107: Process and Outcome Evaluation of a Retention Program for Disadvantaged Nursing Students in a Georgia College of Nursing</p> <p>The presentation is reporting findings from a program implemented to support, retain, and graduate minority students, with the ultimate purpose of increasing the diversity of the nursing workforce. Results are focused on academic performance outcomes and graduation rates achieved as a result of implementing the program for four consecutive years.</p> <p>Develop sustainable interventions for academic success</p> <p>Assess implementation processes in academic settings</p> <p>Assess the outcomes of interventions in academic settings</p>	<p>Live Workshop (60mins) 5/6/2022 8-9am Room 5</p>	<p>Liliana Morosanu, MPH</p> <p>Huey Chen, PhD Lanell Bellury, PhD Faith Luck Diana Ghebrezadik</p>
<p>124: Enabling Advanced Public Health Insights by Leveraging "Whole Person Data" and Social Determinants of Health</p> <p>Utilizing non-traditional data to glean social determinants of health insights enhances patient matching efforts, improves data quality, and enriches contact data for research, recruitment, and health promotion initiatives.</p>	<p>Live Workshop (60 mins) 5/6/2022 8-9am Room 7</p>	<p>Camille Cook, MPH</p>

Concurrent Workshops and Section Speakers
